

# Abstract

## Event management website

We have so many clubs, cells and association in our College... They conduct more events but they have different webpage so it may confuse student to register the events or students may forget about few events or student may not know about the events which they conduct. The solution is one website which contains all events which is our website. Our website contains all interdepartment events as well as intradepartment events. Instead of students searching for different events in different webpage, they can able to find all events in single website. This website is dynamic which means the secretary of particular club or association can able to edit this page. Students can also register for all the events through our website. Details and webpage of all events are available in our website. Students can also contact the events coordinator or secretary. (Contact details of secretary and coordinator also available) All social media's of all clubs and association will provide in our website.
